From the Pastor’s Desk

In honor of this Sunday being the anniversary of the Supreme Court’s Roe vs. Wade Decision legalizing abortion in our country, I want to share a story by Calvin News with you:

“For almost three decades Calvin College professor Pete Tigchelaar has had a three-month-old fetus, encased in plastic, that he uses in his human biology classes. He’s always thought of the tiny fetus as a good educational tool. But he’s not thought of it as a lifesaver. Last year, however, that changed when a student in one of his biology classes privately inquired if he still had it.

Intrigued Tigchelaar said that he did and invited the young woman to his office for further conversation. There he asked why she was interested. She proceeded to tell him an amazing story, one that he now is sharing more widely as Christmas draws closer.

The young woman told Tigchelaar that a generation earlier her mother had been a student in one of Tigchelaar’s biology classes. Unknown to Tigchelaar this student was three months pregnant on a day he had shown the class the fetus with its tiny fingers, facial features, eyes, outline of a liver and other human features.

"She had already visited a pregnancy center," Tigchelaar recalls the young woman telling him, "and was told about the 'product of conception' and 'contents of the uterus' that she had within her. She was advised to have an abortion and had one scheduled for the following morning." But after Tigchelaar’s class she realized she had more within her than a "product of conception." And she cancelled her scheduled abortion, continued with her pregnancy and eventually delivered a healthy baby girl.

"I am that girl," the student then informed a stunned Tigchelaar. "Thanks for my life." Tigchelaar, at the time, was amazed, speechless. He remembers in a halting voice telling the girl simply that she was beautiful.

"Even now," he says, "I can barely tell the story without breaking up." Yet tell it he is."

Mary, Mother of God and Patroness of Life, pray for us.
 Fr. Beran

Sanctity of Human Life Sunday, January 22, 2012

Churches everywhere cherish all human life and declare that every human life is important to God. "You clothed me with skin and flesh, and knit me together with bones and sinews. You have granted me life and steadfast love, and your care has preserved my spirit." Job 10:11-12

Important Changes to the Most Common Over-the-Counter Medication! Read the Label Carefully! All makers of infant’s acetaminophen (Tylenol) are changing the amount/concentration of acetaminophen in their containers to make the concentration the same in all infant’s and children’s products and to reduce the chance of medication errors, which can be dangerous and even deadly. It is **extremely important** if you are giving this medication to small children and infants. You may have both the old (which is three times more concentrated) and the new formulations in your home. Overdosing your young child is more likely to occur during this period of transition.
